

Longevity Recognition Program

Copper continues to grow and change year over year, but the commitment of these team members is one thing that doesn't change. Like the mountain itself, they are steadfast and constant. We are grateful for the loyalty of these individuals in the past years and with the help of their hard work, experience and love for the mountain lifestyle, we have made Copper the great resort it is today.

Thank you for shaping our past and future!

We are thrilled to recognize employees for length of service with our annual Glacier Awards. During this event we recognize employees/volunteers who have completed 10, 15, 20, 25, 30, 35, and 40+ years of service; invitations are sent out annually for those who meet the requirements.

In order for a year to count towards this program, an employee/volunteer must have completed 7 full days (56 hours) between June 1 – May 31 each year. If you feel that you are missing years of service – please reach out to Employee Experience; we may need you to provide proof of years of service for any years not in our current HR systems.
